

91 POINTS -"One of the top Sauvignon Blanc/Semillon blends made in northern California is Signorello's 850-case cuvée called SETA, and the 2000 is the finest I have yet tasted. A blend of 60% Semillon and 40% Sauvignon Blanc, all barrel-fermented, and half put through malolactic fermentation, it reveals an Haut-Brion-Blanc-like nose as well as flavors. Waxy honeyed citrus and figs, with considerable body and glycerin characterize this gorgeous white. It should drink well for 4-5 years. Moreover, it's available for a song." - **ROBERT PARKER, JR'S-THE WINE ADVOCATE - 8-31-02; Issue 142**"
